

KIM SCOTT

Field & Lab Director for Paleontology

EDUCATION

Expected 2009 M.S., Biology (Paleontology Emphasis), California State University, San Bernardino.

2000 B.S., Geology with paleontology emphasis, University of California, Los Angeles.

SUMMARY QUALIFICATIONS

Scott has more than 12 years of experience in California paleontology. She is a qualified geologist and field paleontologist with extensive survey, monitoring and fossil salvage experience. In addition, she has special skills in fossil preparation (cleaning and stabilization) and preparation of stratigraphic sections and other documentation for fossil localities.

SELECTED PROJECTS AND REPORTS

2009 Scott, K. & S. Gust. **Preconstruction Mitigation Measures Report for the El Casco Project, Riverside County, California.** Cogstone performed paleontological record search, pedestrian survey, and developed pre-construction mitigation plan for Southern California Edison and the CPUC under subcontract to RMT.

2009 Gust, S. & K. Scott. **Paleontological Resources Treatment Plan for the El Casco Project, Riverside County, California.** Developed comprehensive paleontological resources management plan, in compliance with the initial EIR, outlining conditions for monitoring and fossil treatment or Southern California Edison and the CPUC under subcontract to RMT.

2009 Scott, K. & S. Gust. **Paleontological Assessment Report for the Chuckwalla Valley Raceway Project in Riverside County, California.** Cogstone performed paleontological record search, review of literature, pedestrian survey, and prepared final assessment report for the County of Riverside under subcontract to Stantec.

2008 Scott, K. & S. Gust. **Paleontological Resource Assessment and Monitoring Report for the Parkside Development Project, Mira Loma, Riverside County, California.** Cogstone performed paleontological record search, pedestrian survey, paleontological mitigation monitoring, fossil recovery of rare giant ground sloth (*Megalonyx*), fossil identification and analysis, preparation of fossils for curation, and preparation final assessment and monitoring report for the County of Riverside under subcontract to the developer.

2006 Scott, K. & S. Gust. **Archaeological and Paleontological Resource Assessment and Monitoring Report for the Serafina Development Project, Mira Loma, Riverside County, California.** Cogstone performed archaeological and paleontological record searches, literature review, mitigation monitoring, and preparation of final assessment and monitoring report for the County of Riverside under subcontract to the developer.

2005 Scott, K. & S. Gust. **Paleontological Evaluation Report and Mitigation Plan for the Kunny Ranch Project, Riverside County, California.** Cogstone performed paleontological record search and prepared paleontological resources assessment report for the County of Riverside under subcontract to Viejo California Associates.
