

NANCY SIKES

Registered Professional Archaeologist

EDUCATION

- 1995 Ph.D., Anthropology, University of Illinois, Urbana-Champaign
- 1990 M.A., Anthropology, University of Illinois, Urbana-Champaign
- 1985 B.A. with distinction, Anthropology/Museology, University of Nevada, Reno

SUMMARY QUALIFICATIONS

Sikes is a Registered Professional Archaeologist with over fifteen years experience as a principal investigator, senior scientist, and project manager. She has completed hundreds of projects and technical reports under compliance with federal, state, and local regulations and agencies. Sikes' research has been published in scholarly journals such as *Evolutionary Anthropology* and the *Journal of Human Evolution* among others. She currently holds Research Associate status with the National Museum of Natural History, Smithsonian Institution, with which she had a six-year association as a visiting scientist after receiving her Ph.D.

RELATED PROJECT AND REPORTS

2005-9 **Naval Facilities Engineering Command (NAVFAC ENCOM) Indefinite Delivery Indefinite Quantity for Cultural Resource Related Services; Multiple States.** Principal Investigator, SWCA. Completion of 9 task orders under 5-year contract with the Department of the Navy, Southwest Division. Evaluation and eligibility investigations of archaeological sites on Marine Corps Base Camp Pendleton; preparation of Integrated Cultural Resources Management Plans (ICRMPs) for four California bases—Naval Weapons Station (NAWS) Seal Beach, NAWS Seal Beach Detachment Corona, NAWS China Lake, and Naval Air Station Lemoore; survey and evaluation of historic buildings with Port Hueneme, Naval Base Point Loma, and Naval Air Station, North Island.

2009 **Naval Air Station North Island; California.** Principal Investigator, SWCA. Intensive inventory and evaluation of thirteen buildings built between 1918 and 1935 at Naval Air Station, North Island (NASNI), in San Diego County for the Department of the Navy, Southwest Division, Naval Facilities Engineering Command (NAVFAC SW).

2008 **OHV Project; California.** Principal Investigator, SWCA. Completed a cultural resources study for specified motorized vehicle routes of travel study for the Bureau of Land Management (BLM) within over 1,200 acres in the Colorado and Mojave Deserts in Imperial, Riverside, and San Bernardino Counties.. Conducted in compliance with Section 106 of the NHPA, a total of 58 resources were recorded or updated as part of 1,200-acre study. Management recommendations were provided.

2008 **Consumnes Power Plant Project Environmental Monitoring; California.** Principal Investigator, SWCA. Completed 3-year monitoring project for the construction of new power plant and 26-mile underground gas pipeline for the Sacramento Municipal Utility District under the direction of the California Energy Commission and CEQA compliance. Compliance included preparation of a Mitigation and Monitoring Plan, Native American consultation, cultural resources monitoring, preparation of a final technical report, recordation of archaeological sites, features and isolated finds, and curation of artifacts.

2008 **Edom Hills Project; Riverside County, California.** Principal Investigator, SWCA. Completed separate cultural resources inventory and monitoring program in 2007 and 2008 for replacement of wind turbines on lands managed by the Bureau of Land Management in Riverside County for BP Alternative Energy. One prehistoric site and one prehistoric isolate are situated within the APE, but were recommended not eligible for listing on the National Register of Historic Places.
